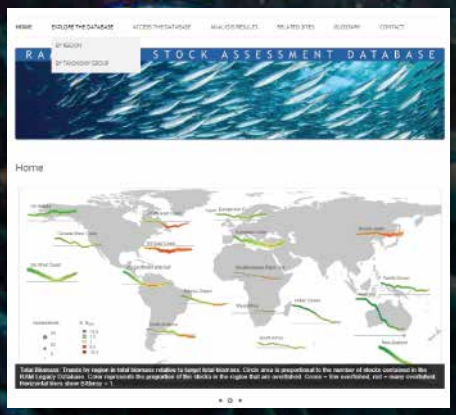
What does the EFAR team do?

We report assessment data of Australian fisheries stocks...

...to the RAM database...



The RAM Legacy Stock Assessment Database is a compilation of stock assessment results for commercially exploited marine populations from around the world

...and the Fisheries Statistic Reports...

Fisheries Statistics Reports are published by ABARES and are the authoritative resource for Australia fisheries information

As of January 2020 27 stock assessments are in RAM, 15 were submitted by the EFAR team
