

It's that time of year again:

## *8th Annual C3 User Meeting (IYCr special)*

---

Once again, the whole entire point of the user meeting is to chat about crystallisation. What can C3 do for you? What you want C3 to do for you? What can we do if we gang up together?

To make sure that at least someone (else) says something at the meeting, we have a couple of short talks, based around this year's topic, which is:

### **Adding your protein to the stable**

We have pressganged (er, 'persuaded') the following kind people to present their work

Denis Burton, Latrobe University  
Cameron Hunt, Monash University  
Stewart Nuttall, CSIRO

***If you want to present at the meeting, then let us know by the 21<sup>st</sup> of March.***

Shane Seabrook and Janet Newman will be presenting\*, we will talk about some of the new features available through C3, and what that means for your workflow.

The important bits:

When: Friday, 28<sup>th</sup> March, 2014, 2-4pm, with milling around and chatting afterwards.  
Where: CSIRO Parkville's Conference Room (2<sup>nd</sup> Floor)  
343 Royal Parade, Parkville

RSVP: [c3@csiro.au](mailto:c3@csiro.au), as soon as you remember. If you leave this until the 28<sup>th</sup>, you may miss out on a piece of fairy bread and a cup of lime cordial, assuming we can find a sponsor.

*\*Of course: can you see me not making the most of a captive audience?*
