

**Addendum**

**Register of Australian Herbage Plant Cultivars**

*Authors' corrections for: Trifolium subterraneum* L. var. *yannanicum* (Katz et Morley) Zohary and Heller (subterranean clover) cv. Riverina by B. S. Dear, P. G. H. Nichols, S. G. Clark, C. T. de Koning, R. J. Orr (*Aust. J. Exp. Agric.* 1996, **36**, 519–20)

*Page 519, second sentence in 'Origin' section should be replaced by: 'It was bred by Dr J. S. Gladstones at the University of Western Australia Field Station, Shenton Park, Western Australia from the cross Meteora x Trikkala made in 1976, with support from W. J. Collins and W. R. Stern.'*

*Page 519, sixth sentence in 'Origin' section should be replaced by: 'Single plant selection in both generations was conducted on the basis of low formononetin content, good vigour, high hardseededness, strong burr burial, and homozygosity for leaf markings.'*

*Page 519, the following sentence should be added to the end of the fourth paragraph of the 'Origin' section: 'Isoflavone screening was conducted in the Isoflavone Laboratory at the University of Western Australia Field Station by B. Tan (University of Western Australia).'*
