Living Water Smart(er)- Darwin

Joel Spry

Manager- Water Demand

24/11/2023

Living Water Smart

- Water efficiency program
- 10 years- established to delay infrastructure spend
- Driven by data; 7 GL saving..so far
- Community engagement- events, TGS, TV and radio campaigns

We need to be careful with water use even in the wet

In Darwin, we use more water than can be captured and supplied in the long term. While our Dam may fill some wet seasons, this is not always the case and we can't actually use all this water. So when it rains, turn off your irrigation and let nature do the watering.

SYSTEM OFF

LIVING WATER SMART
Darwin Region

An initiative of **PowerWater**

livingwatersmart.com.au

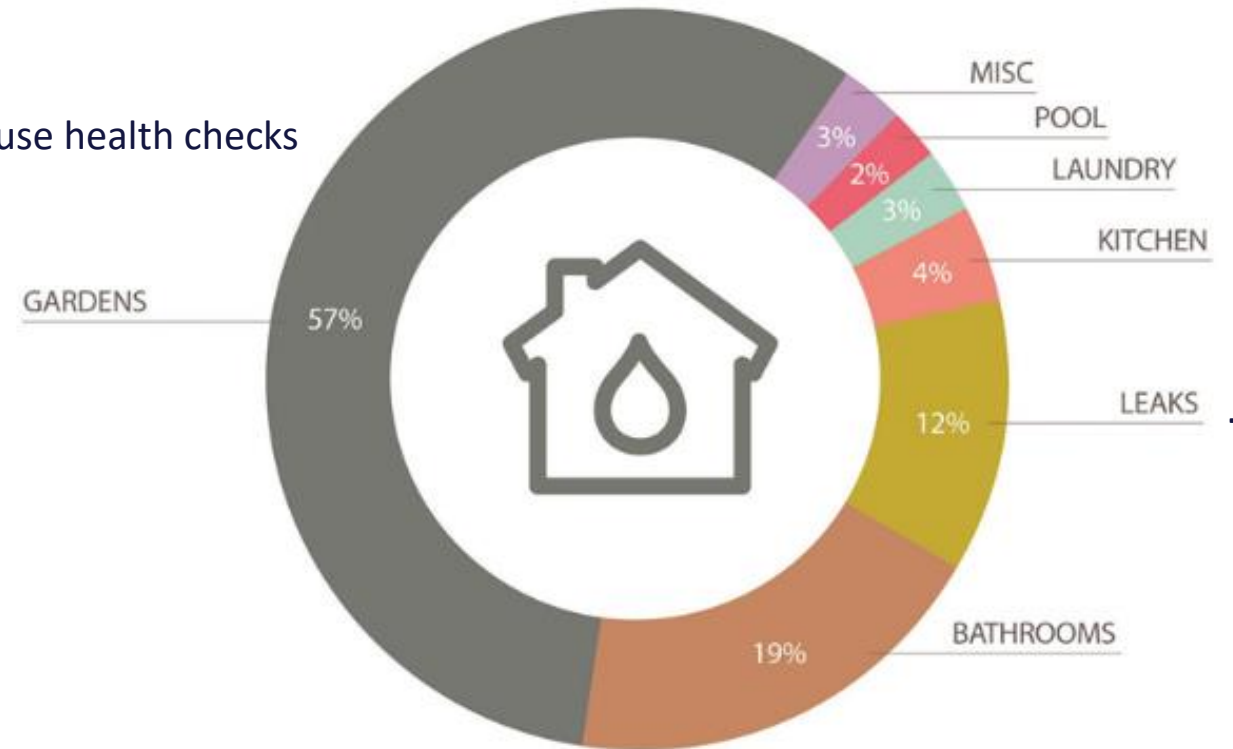

Living Water Smart in Darwin

Data driven program

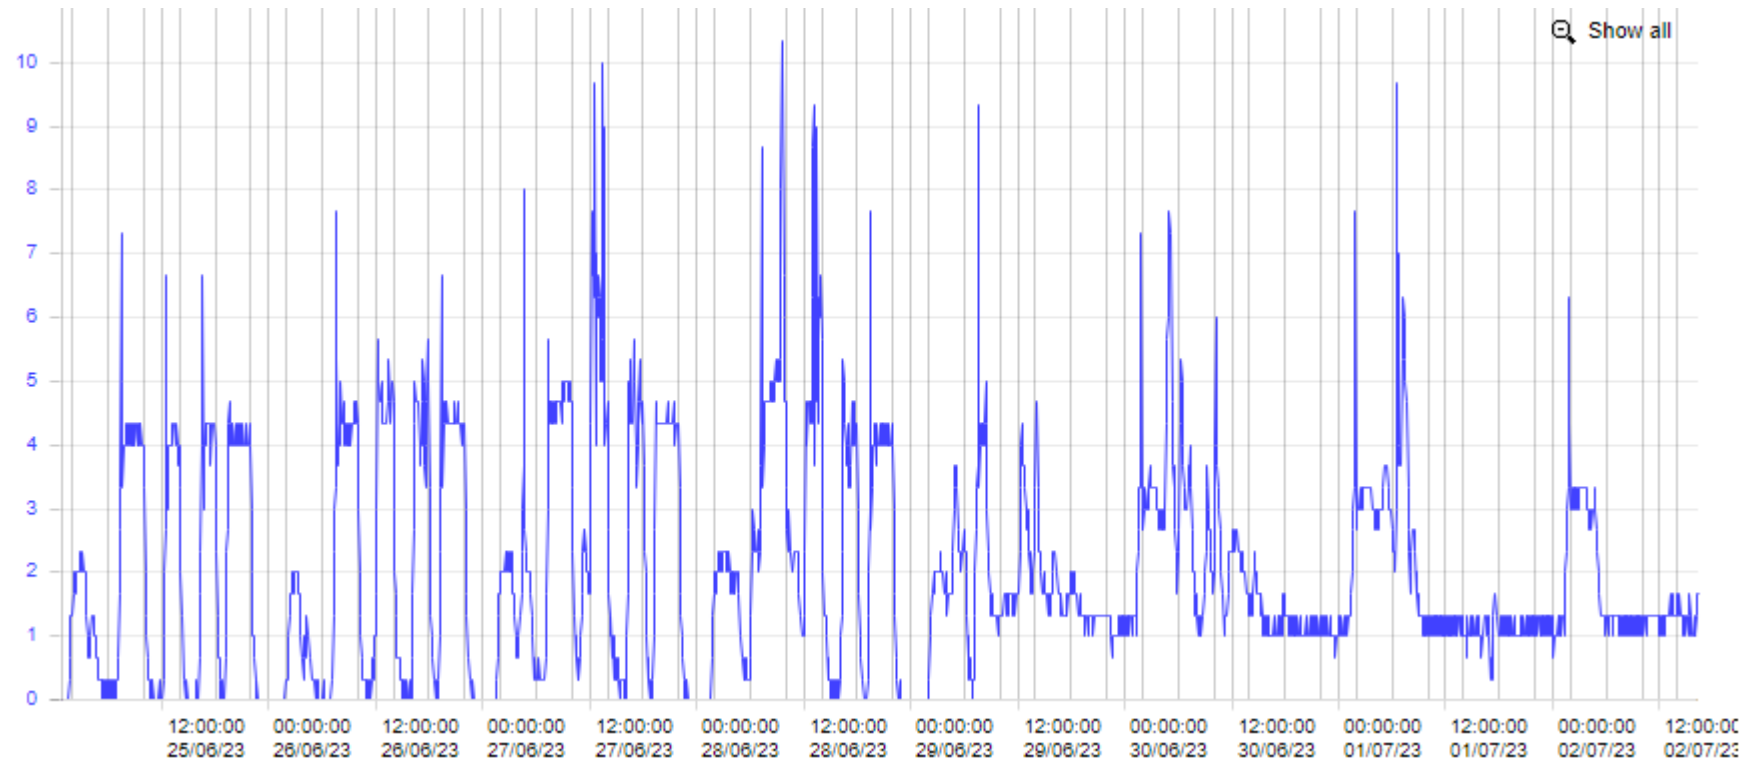

Dynamic support to PWC and community

Targeted programs- GTU's, leak rebate, commercial water use health checks

High users and commercial customers

Data loggers and smart metering

That's My Water!

Weather Web

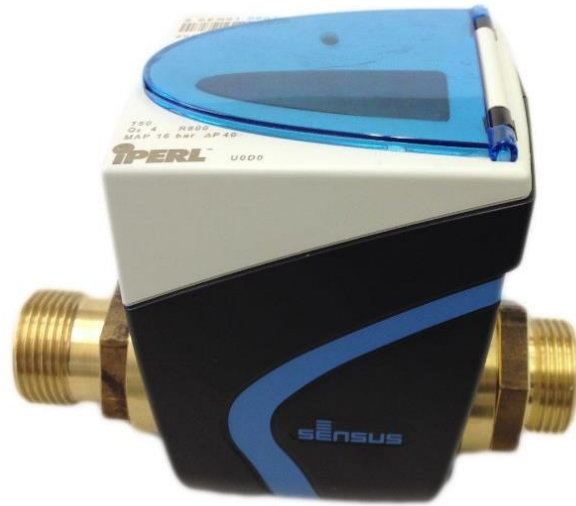

Increasing data availability- more weather points
Improving smart controllers
