

## good health begins in the gut

GutHealthCo want to help health care providers diagnose and treat patients with unresolved gut complaints and distress. Our test provides an early diagnosis that is accurate, simple and affordable which allows treatment to be commenced sooner. In addition, we will provide personalised dietary plans to restore and maintain gut health.

**Diagnose, treat and monitor** gut health  
using a quick and easy clinical test

50% of the world's population experience some form of gut pain and discomfort. If left undiagnosed and untreated, it can be harmful and increase the risk of developing serious gut problems and chronic diseases. GutHealthCo have developed a quick and simple test to detect the breakdown of the gut defence barrier which is responsible for keeping the gut and the rest of the body healthy.

### **TECH READINESS LEVEL: 6-7**

We are now providing the diagnostic test for patients to be diagnosed with "leaky gut" through their health care provider in an operational environment with a state-of-the-art health clinic and accredited pathology laboratory.
