

CSIRO Industry PhD Program

Brisbane Networking evening

21 May, 5.30 to 7.30pm

BRISBANE CBD (TBC)

Join us for an evening of nibbles and drinks. We're honoured to welcome our special guest speaker Dr Andrew Rayfield. As an alumni of the ON Prime, Andrew will discuss his journey through translating research into delivering real work impact.

GUEST SPEAKER

Dr Andrew Rayfield

Research Fellow and
Research Commercialisation Manager
CJCNSCR, Griffith University

Dr Andrew Rayfield is a Research Fellow and Research Commercialisation Manager for the Clem Jones Centre for Neurobiology and Stem Cell Research (CJCNSCR) at Griffith University. Andrew is a molecular and cellular neuroscientist by training with over twenty years across academia and industry.

Andrew's role as Research Commercialisation Manager for the Centre is to develop and translate the Centre's three main areas of preclinical research into clinical products. The Centre's goal is to complete the clinical phases of development and produce a therapy product for spinal cord injury, available to all around the world.

Please note that this event is BY INVITATION ONLY. Due to space constraints, registration is mandatory to attend. To avoid disappointment, please register by **14 May** through an invite that we'll send from CSIRO Events. We apologise that late registrations will not be accepted.
