

CSIRO Industry PhD Program

Melbourne Networking evening

29 May, 5.30 to 7.30pm

MELBOURNE CBD (TBC)

Join us for an evening of nibbles and drinks. We're honoured to welcome our special guest speaker Jo Condon. As an alumni of the 2024 ON Prime, Jo will discuss her journey through translating research into delivering real work impact.

Jo Condon

Director of Strategic
EngagementAuScope

Jo Condon is a geologist, designer and strategist living and learning on unceded Wurundjeri Country. She has a penchant for ancient submarine rock textures, playful and artistic expression, and governance that is good for ecosystems. At AuScope, Australia's 'laboratory' for Earth and geospatial science, Jo builds strategies and shapes research impact culture towards equity in Earth systems across the vast Australian continent. In 2024, Jo led a (small but mighty) AuScope team to participate in the CSIRO ON Prime 15 program. Jo cannot speak more highly of the experience (you'll see) and the importance of diverse, inclusive, equitable research inputs.

GUEST SPEAKER

Please note that this event is BY INVITATION ONLY. Due to space constraints, registration is mandatory to attend. To avoid disappointment, please register by **14 May** through an invite that we'll send from CSIRO Events. We apologise that late registrations will not be accepted.
