

# QUOCKA Survey Membership and Data Access Policy

1. Application for membership to the *QU Observations at Cm wavelength using Km baselines with the ATCA* (QUOCKA) team can be made via email to the principal investigator (PI) George Heald at [George.Heald@csiro.au](mailto:George.Heald@csiro.au).
2. QUOCKA membership is immediate once approval has been sent to the applicant via email by the PI.
3. The QUOCKA Membership list will be kept up to date at <https://research.csiro.au/quocka/team/>
4. Being an approved member grants access to all data, including raw visibilities and data that have been through any type of data reduction routine or pipeline. The raw visibilities will become public as per the ATNF facilities policy: <https://www.atnf.csiro.au/observers/data.html>.
5. In the case where an applicant's membership request is rejected by the PI, the applicant may lodge an appeal via email to all three other members of the QUOCKA Leadership Team: Craig Anderson ([Craig.Anderson@csiro.au](mailto:Craig.Anderson@csiro.au)), Naomi McClure-Griffiths ([naomi.mcclure-griffiths@anu.edu.au](mailto:naomi.mcclure-griffiths@anu.edu.au)), and Joe Callingham ([callingham@astron.nl](mailto:callingham@astron.nl)). The decision by these three members of the Leadership Team on the membership status of the applicant will be final.
